

Member Splash

Built for pools by pool people!

- SIMPLE
- ALL-IN-ONE
- AFFORDABLE

Member Splash is the only suite of tools designed specifically for swim Clubs to help you keep your pool in top performance during the season.

Only the things you need. None of the things you don't!

Member Splash consolidates all of the tasks that your Front Desk Staff, Guards, and Board do in one place. See how many people come to the pool on different days of the week so you can better control crowds. Determine your busy times at the pool to minimize the cost of Guards and Staff. Member Splash provides all key management functionality for your swim club using an all-in-one platform.

How does my Club benefit?

A smooth running pool makes Members, Boards and Staff happy! Knowing what your Members' attendance will allow you as the Manager or Pool Maintenance company to better schedule. Redirect staff to simple maintenance functions or special projects on the days Club attendance is low. Use the facilities calendar to see what the Social Chair is planning so you can add more check-in staff when check-in will be busy. Member Splash's all-in-one platform with integrated check-in, visits report, and guest tracking will allow you to look at the past to anticipate your future necessities!

Dealing with Covid in 2021 has become top priority for Clubs! Our New Facilities Reservation System allows you to limit the number of members that enter the pool. You can define areas at the pool for members to enjoy such as Baby Pool, Dive Well or Lap Lanes. Limit timeframes for each area with a gap between timeframes for cleaning and sterilization. We even provide a reservation report so that you know exactly who was at the pool and at what time! Critical needs for 2021!

CUSTOMIZED REPORTS: A QUICK VIEW OF ATTENDANCE HELPS MAKE SCHEDULING MAINTENANCE EASY!
