

Member Splash

Built for pools by pool people!

- SIMPLE
- ALL-IN-ONE
- AFFORDABLE

Member Splash is the only suite of tools designed specifically for swim Clubs to manage Members, guests, payments, wait lists and more!

Only the things you need. None of the things you don't!

Member Splash consolidates all of the tasks that you do with paper checks, printed forms and stacks of clutter! Our software pulls together Member payments, front desk purchase, bond payments, discounts and late fees. We can even track and bill for non-standard income such as parking charges or event rentals. Whatever you need to bill for, we can help you.

How does my Club benefit?

Running the pool is no easy job and the Treasurer is the person everyone goes to with the question **"Do we have the money to do that project?"**. When the Treasurer has a quick, solid and accurate account of where the money is coming from and where its going, the Board has more control and can better make financial decisions, *"Yes! we have the money for that"*

Will we be able to fund our reserve study for this year?

Our reports show you exactly what you have collected in dues from the moment you send your first sign up email!

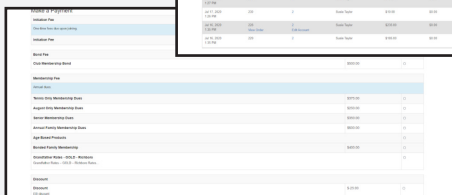

Can we upgrade the guard shack for the season?

With easy CSV downloads you can import the financial data to Quickbooks or manipulate it yourself with Excel.

How can Member Splash help the Treasurer?

The Treasurer is part of nearly every decision the Club makes. No meeting goes by without a full report from the Treasurer on past revenue and an estimate on future funds. You can see every amount your pool has taken in and who has paid. With our reports you can view transactions at the daily level, see a visual display of accounts in good standing and determine what products are bringing in the most revenue. Need more detailed information? Download your data to csv and create your own pivot tables, graphs & reports, even upload the data to your accounting software.
